

Particle trap

black | ø 41 mm
without microscopic evaluation

Art. No. 30023_10 10 pcs
 30023_100 100 pcs

- Determination of airborne particle contamination
- Exposure of only bright and white particles and fibers

Technical data

- Homogeneous black adhesive pad
- Completely removable mounting options (power strip)

Accessories (optional)

- Mounting angle for particle traps (Art. No. 30005)
- Particle trap stand (Art. No. 30012)
- Microscopic evaluation | black pad (Art. No. 10073)
- Fixing for particle trap
 - for JOMESA microscopes | 1 x (Art. No. 61136)
 - for JOMESA microscopes | 6 x (Art. No. 61417)
 - for LEICA microscopes or dhs-Cleanalyzer | 1 x (Art. No. 61137)

Note

Automated standard analysis with determination of the sedimentation value is not possible
