

# Product datasheet

**Product name** Mobile inductive bearing heater  
For universal use when heating bearings and other rotationally symmetrical workpieces.

**Product number** T-AW-20

**Product series** T-AW

**EAN** 4021176830976

## Technical attributes

| Attribute name  | Attribute value               |
|---|-------------------------------|
|  maximum weight of ball bearing | 15-40 kg                      |
|                                | 0-240 ° C                     |
|  range of voltage            | 110-230 V AC - 16 A - 50 Hz V |
|  total dimensions width       | 345 mm                        |
|  total dimension height       | 200 mm                        |
|  total dimensions depth       | 270 mm                        |
|  weight                       | 20.1 kg                       |

## Spare part

| Product number | Product name |
|----------------|--------------|
| T-AW-20-M      | Magnet probe |
