12 OPTIONS

A = solenoid at side of port B (for single solenoid valves)

O = Horizontal cable entrance , to be selected in case of limited verical space

WP = Manual override protected by metallic cap

Hand lever option:

MV = Auxiliary vertical hand levers

This option allows to operate the valves in absence of electrical power supply, i.e. during commissioning, maintenance or in case of emergency.
When the valve is electrically operated the hand lever remains stopped in its rest position
The hand lever execution does not affect the performances of the original valves

Total angle stroke	[°deg]	± 28°	Lever actuating force	[N]	1 ÷ 8
Working angle stroke	[°deg]	± 15°	Lever device weight	[g]	880

Options **MV** and **AMV** are available only for configuration **61, 61/A, 63, 63/A, 71** and with spool type **0, 0/2, 1, 1P, 1/2, 1/2P, 3, 3P, 4, 7**

Not available in combination with option **WP**

MV option and **AMV** allow to operate the valve in absence of electrical power supply.
For detailed description of DHA with hand lever option see tech. table **E138**
