

KEG-AK telescopic joint

with SH and ZS70

PRODUCT INFORMATION

The extendible KEG/AK telescopic joint makes a length adjustment of approx. 30 mm possible. The conduit connection piece can be pivoted by approx. 20° in all directions and can therefore adapt to the dresspack movements. If used in conjunction with the strain-relief

systems ZS-70 or ZS-70-KB it provides optimum wear protection, even when using heavy media packages.
